D E N T A L G R O U P

Dear Friends and Family,

Our office has returned to normal business hours; however, these hours can change based on how the coronavirus situation changes within our community.

Infection control for the health and safety of our patients has always been our top priority. We will continue to use the CDC- and OSHA-mandated cleaning and disinfection protocols in our treatment areas utilizing a bactericidal, viricidal, fungicidal and tuberculocidal disinfectant that will kill the coronavirus.

To keep our patients and staff safe we will be implementing the following extra precautions into our office:

- To avoid having anyone in our waiting room we ask you to wait in your car and when you arrive, please call the office. Do not bring anyone to the appointment with you. If you arrive more than 10 minutes late you will be required to reschedule your appointment due to the requirements to sterilize our office.
- If you have a chronic health condition such as, but not limited to, Asthma, COPD, Diabetes, Heart condition, or any autoimmune disease we ask that you please call our office at 303-757-6139 so that we may schedule your appointment with the proper protocols.

We are full of hope that this will be a permanent return to normal hours, and we look forward to seeing each of you. Until then stay safe and stay healthy.

All our best~

Dr. Bill, Patti, Sue and Brooke
