## Dear Friends and Family,

Our office has returned to normal business hours; however, these hours can change based on how the coronavirus situation changes within our community.

Infection control for the health and safety of our patients has always been our top priority. We will continue to use the CDC- and OSHA-mandated cleaning and disinfection protocols in our treatment areas utilizing a bactericidal, viricidal, fungicidal and tuberculocidal disinfectant that will kill the coronavirus.

At this time, we are giving our patients the option for mask-wearing. Please feel free to wear a mask if you feel more comfortable – however, they are no longer mandatory.

If you have a chronic health condition such as, but not limited to, Asthma, COPD, Diabetes, Heart condition, or any autoimmune disease we ask that you wear a mask to our office if you have not been vaccinated.

We are full of hope that this will be a permanent return to normal hours, and we look forward to seeing each of you. Please stay safe and stay healthy.

All Our Best,

Bill, Patti, Sue and Ariana
